## General Information

The security of voting materials and equipment is very important. You must follow the chain of custody procedures when picking up and returning voting materials and equipment. This includes, memory sticks, compact flash cards, passcodes, keys, ballot activation cards, and paper ballots. It is also important to maintain security control over the voting equipment.

All reports and forms **MUST** be completed and signed appropriately.

All election judges are expected to work together as a team to be **sure that the polling place opens on time as required by law and when closing the polls.**

---

## Election Day Preparation

Election supplies must be picked up between 7:30 a.m. and 5:00 p.m. the day before Election Day. Further instructions about pick up will be provided at training.

Chief Judges are responsible for contacting the polling place to establish a time to partially set-up the polling place the night before Election Day and to establish a time of arrival on Election Day. The Chief Judges must also contact the other election judges (including election field support) assigned to the polling place, and volunteers ASAP after contact has been made with the polling place to provide times of arrival and other specific details of what is needed for Election Day. It is recommended that all judges, especially election field support, assist with set-up the night before, but it is not mandatory.

## 5.2 Chief Judges

---

## General Responsibilities of Chief Judges

In addition to the manual, a checklist is provided for judges to follow to assist with required job duties. Please use the checklists provided.

1. Manage tasks and activities in the polling place. Call the local board of elections for any assistance.
2. Supervise election judges.
  - Confirm that all election judges have arrived and are working to open the polling place on time.
  - Verify that all election judges have signed the payroll sheet.
  - Assign duties and break times, especially for meals. Chief judges may fill in for election judges to allow for breaks.
3. Be sure that all rules and procedures in this manual, in training, and stated by the local board of elections are followed.
4. Be sure that the polling place operates in a peaceful, orderly manner and in accordance with all applicable policies and procedures.
5. Monitor the line of voters waiting to check-in and to be issued ballots. Also, monitor the line of voters waiting for an open voting booth or provisional ballot. Alert the elections office if lines are unexpectedly long (e.g., voters are waiting 30 minutes or longer in line to vote).
6. Be sure that **only** voters who are required to present ID are asked to do so.
7. Be sure that the following policy regarding the use of the ballot marking device is being followed:
  - Any voter may ask to use the ballot marking device. **Do not** ask why the voter needs or wants to use it or ask for proof that the voter needs to use it.

- If a voter wants to use the ballot marking device, offer to explain the accessibility features of the ballot marking device.
  - Make sure that at least 2 voters use the ballot marking device during the day. If the minimum number of voters have not used the ballot marking device by 6:00 p.m., direct voters to use the ballot marking device until 2 voters have used it.
8. Assist voters as needed.
  9. Answer questions and provide instructions to voters, election judges, the media, and challengers and watchers. Serve as a liaison between people in their polling place and the local board of elections.
  10. Record any problems, issues, or unusual situations in the *Election Day Log* including:
    - Any alleged malfunction of the voting equipment (scanning unit and ballot marking device), electronic pollbooks, or other equipment;
    - Issues that may require further investigation; and
    - Issues regarding the conduct of challengers and watchers, election judges, media, electioneers, and voters.

Be specific and include the voting equipment number and the names of all people involved. Be sure to write the voter's complete name, voter identification number and the specific issue that occurred.

11. Report any potential issues with voting equipment to the Help Desk at the local board of elections office by calling 410-386-2960 or 410-386-2955.

## 5.4 Chief Judges

12. Be sure that voters do not leave the polling place with voting equipment, supplies, voter authority cards, ballot activation cards, or ballots.
13. Periodically check the power supply and the charging status of all voting equipment.
14. Be sure that tamper tape is properly attached to the voting equipment, transfer bins, and carts, and is not voided.
15. Be sure that all rules and procedures for polling place security and voting equipment security are followed. See *Chapter 2 – Security Rules and Awareness* for more information.
16. **Be sure that voting equipment, including any that are shut down, are not removed from the polling place without authorization from the local board of elections.**
17. Be sure that all election day forms are completed and signed as required.

---

### **Absent Election Judges**

If an election judge does not arrive at the polling place by the time designated by the local board of elections, notify the local board of elections **immediately**. The local board of elections will send a replacement election judge as soon as possible or instruct you to appoint replacement election judges in accordance with State law.

 Election judges **must** continue to set up the polling place and open the polls on time, even if only one political party is represented among the election judges.

---

## Pre-Election Day Setup

If so, some tasks listed below may be done the night before election day. **Do not open the voting equipment or run opening reports from the scanning units or electronic pollbooks until election morning.**

### **Fleeing Voters**

 If a voter who was issued a ballot has walked away without casting the ballot, election judges should attempt to find the voter so he or she can finish casting the ballot.

1. When a ballot or ballot activation card and the voter authority card are found, a chief judge, in the presence of an election judge from a different party, must spoil the ballot as follows:
  - For regular paper ballots: Fill in all of the ovals for each contest (overvote all contests) and write “spoiled” on the ballot.

- For ballot activation cards: Use a sharpie marker to cover up all selections and write “spoiled” on the ballot activation card.

Printed ballot activation cards will only show the voter’s selections. Therefore, all selections must be covered. Cover all printed barcodes appearing on the ballot activation card.

- Place the ballot in the “Spoiled Ballot Envelope.”
- Spoil the voter authority card by writing “fleeing voter” across the voter authority card.
- Put the voter authority card in the “Spoiled VAC Envelope.”
- Reset the voter’s “Ballot Issue Status” in the electronic pollbook. See “Resetting a Voter’s Ballot Issue Status (Chief Judge Only)” in this chapter.
- Record the incident in the *Election Day Log*.

These voters are permitted to check-in to vote if they return later.

2. If the voter’s voter authority card is not found, spoil the ballot as follows:

- For regular paper ballots: Fill in all of the ovals for each contest (overvote all contests) and write “spoiled” on the ballot.
- For ballot activation cards: Use a sharpie marker to cover up all selections and write “spoiled” on the ballot activation card.

Printed ballot activation cards will only show the voter’s selections. Therefore, all selections must be covered. Cover all printed barcodes appearing on the ballot activation card.

- Put the ballot in the “Spoiled Ballot Envelope.”
- Record the incident in the *Election Day Log*.

 If these voters return to vote, the “Ballot Issued” status in the electronic pollbook will indicate that a ballot has already been issued to the voter. These voters may only be issued a provisional ballot.

---

### **Resetting a Voter’s “Ballot Issued” Status**

**This is a function of the chief judge only.** Resetting the “Ballot Issued” status on the electronic pollbook by a chief judge allows check-in judges to properly check-in voters who were previously checked-in under the following circumstances.

**In all cases, it must be confirmed by the election judges that the voter did not cast their previously issued ballot.**

 A voter who claims that the ballot was not cast, and it cannot be confirmed that the ballot was not cast, must be issued a provisional ballot.

This applies to the following voters:

- Voters who were mistakenly checked-in under another voter’s name (“misidentified voters”).
- Voters who alert election judges that they must leave the polling place before marking or casting their ballot. If this voter returns later in the day, the voter may be checked-in to vote.

To reset the voter’s ballot issued status in the electronic pollbook, perform the following steps:

1. Get the ballot or ballot activation card from the voter. Use the information on the voter authority card to search for the voter’s name in the electronic pollbook.

2. Tap on the row of the voter whose "Issued" field is to be changed.
