8.3.3 Inoperable ballot marking device

In the event a ballot marking device becomes inoperable, the chief judge should be notified immediately. The chief judge must immediately report the issue to the Carroll County Board of Elections so that the machine can be repaired on-site or replaced. **The chief judge should also record the instance in the *Election Day Log*.**

If a polling place has **one ballot marking device** and that ballot marking device becomes inoperable, and a voter needs to use the ballot marking device during this time:

- Immediately notify the chief judge. **The chief judge should also record the instance in the *Election Day Log*.**
- Inform the voter that the ballot marking device is inoperable and that it is in the process of being fixed (or replaced). The voter should be told how long it is estimated it will take to repair/replace the ballot marking device.
- The chief judge should inform the voter that they may wait for the machine to be fixed or replaced or the voter may leave the polling place and come back later. Upon their return, they will be directed to the front of the line to mark their ballot.
- If the voter chooses to leave the polling place and come back, the chief judge should reset the voter's "ballot issued" status as provided in Section 5.10 - *Fleeing Voters*. The voter will be reissued another voter authority card when they return to the polling place.
- The voter should be given a 'Return Pass' card by the chief judge before they leave. The voter should be informed they should bring this card with them when they return. The voter will still be able to vote without this card if they forget to bring it back.
- Once the voter returns, an election judge should escort the voter to the front of the line at the check-in area to be issued another voter authority card and then escorted directly to the front of the line to mark their ballot.
- If the voter began filling out their ballot prior to the machine becoming inoperable, the chief judge should spoil the ballot in accordance with Section 7.5.2 - *Replacing Ballots and Ballot Activation Cards*.

8.3.4 At the scanning unit

- Ask the voter for the voter authority card.
- Make sure the voter authority card has been signed by the voter and initialed by the check-in judge and ballot issuance judge.

- Make sure the voter is not a provisional voter. A provisional voter authority card will say “PROVISIONAL BALLOT” at the top. It will also say “DO NOT ISSUE REGULAR BALLOT” above the ballot style. If the voter is a provisional voter, **DO NOT** allow the voter to approach the scanning unit. Tell the chief judge right away.
